Projects

MERN eCommerce

`React` `Redux` `Express` `MongoDB` `JWT`

Full featured eCommerce store built with MERN stack and Paypal payments API. Admin page to manage customers, products & orders.

Portfolio

`React` `ES6` `React` `Netlify Forms` `Lottie Animation` `UI/UX`

Accessible and responsive SPA portfolio built with React.js. Responsive image sizing using srcsets and WebP. Utilized Lighthouse to measure site's performance, accessibility and user exprience.

Movie App

`React` `API` `ES6` `SASS`

Created using TMDB API and React.js. A simple, responsive app to find the most popular, top rated and latest movies. Users can also find movie by title.
